Profile

My summer experience at Clark Wilson has been very enriching. I had the opportunity to work on mediation briefs, attend a mediation, draft documents for trial, co-author blog posts, attend chambers, prepare research memos, and communicate directly with clients. However, what stood out to me most was the environment that the firm fosters. The lawyers I worked with were generous with their time and gave me the latitude to work on important assignments and take ownership of my work while always being there to give support when I needed it. I always felt part of the team and I am excited to be back with the rest of my cohort for articles next year!
